

## Prayer for Those returning to School for a New School Year

Dear God

At this time we join with others to remember specially our schools:

We are thankful for our schools and bring to you:

Schools in our locality, schools in the area attended by local youngsters and those for our family members wherever they might be:

We ask for wisdom for leaders and teachers planning daily schedules and the way ahead, and encouragement for all working for and at school.

We pray for families at this time and for each youngster; the little ones right up to those in Sixth Form or moving on from school:

That as well as work there will be happy times together and enjoyment like being outdoors.

May there be good values, help if needed, safety and health for family life and as school life is together again, the right support for all children.

Father God we pray for strength, grace and hope for all at this difficult time.

Amen
